## Basic H<sup>2</sup>®

Super Cleaning Concentrate

How do you get industrial-strength clean without industrial-strength toxins? You put this concentrated wonder on the job to power through yours. Then you breathe a sigh. Because it wipes out your worst grime. Yet it doesn't wipe out your lungs. Or the planet, for that matter.

Basic H<sup>2</sup> meets Green Seal's environmental standard for industrial and institutional cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

Green Seal is an independent, nonprofit organization that has been well recognized for awarding certification to products that prove, after scientific evaluation, to be environmentally preferable and effective.
